QUANTIFICARE

3D Imaging for body shaping

3D LifeViz®
360° view for body
contouring and evaluation

3D LIFEVIZ® ADVANTAGES

A solution to accurately track **body contouring treatments**:
Surgical: Liposuction, Fat Grafting, Butt lift
Non Surgical: cryolipolysis, RF-powered, lasers, ultrasound systems

Follow your patient's progress

- * Evaluate your artistry
- * Compare before-after based on volume comparison
- * Share standardized results with your peers

Improve patient communication

- * Be transparent and objective with your patients
- * Recommend the right treatment based on body measurements
- * Improve your follow-up

Generate more revenue

Create a loyal
patient base

Recommend
complementary
treatments

Automate your
workflow

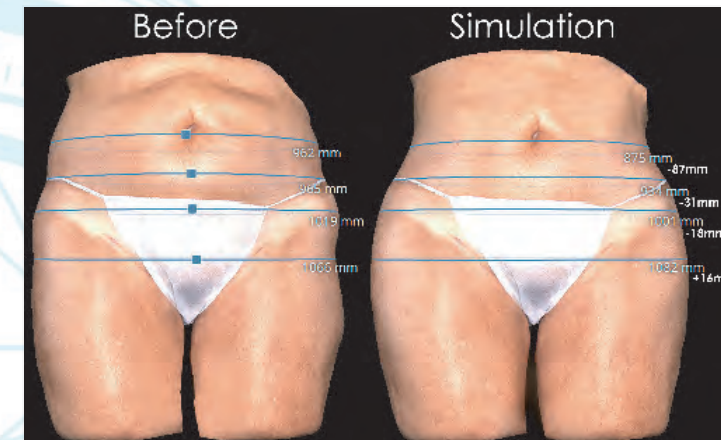

Spend less time
convincing

3D LIFEVIZ® TOOLS

3D LifeViz® is based on a **revolutionary (patent-pending) acquisition process** that effortlessly captures a 360° 3D model of your patient in minutes.

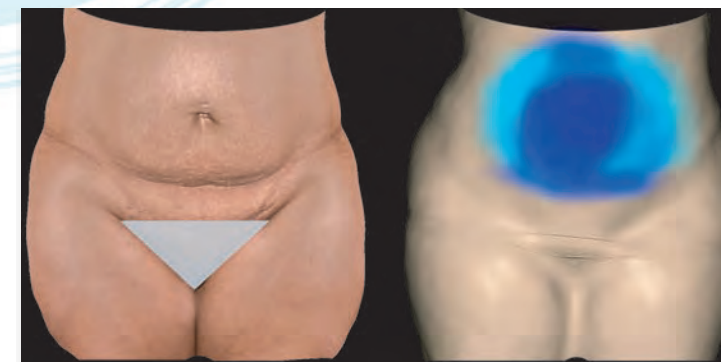

Body Measurements

- * Get baseline measurements in one-click
- * Recommend the right treatments

Standardized before/after 3D pictures

- * Discuss results with your patient
- * Compare any two time points
- * Adjust your treatment plan

Simulation of expected results

- * Discuss expected results with your patient
- * Use your aesthetic devices more efficiently by quantifying expected volume change in advance.

3D Skin evaluation

- * View dimples
- * Quantify with the optional 3D Analysis module.
